MEDICAL ALERT – INFLUENZA B INFORMATION

Dear Parents/Carers,

The school has been notified of confirmed cases of Influenza B across the school, in the event of any more students being diagnosed with Influenza we request that the school office be notified at ccschooloffice@ccwerribee.catholic.edu.au and students remain at home until they have recovered fully.

Young children are particularly susceptible to illness and infection because their immune systems have not fully developed. Close contact with other children in various settings increases the likelihood of coming into contact with many viruses and germs.

Supporting everyone in preventing the spread of infection is really about supporting the healthy development of all children – your own and others

Please refer to the links below for possible Influenza symptoms, further information about Influenza and immunisation.

If you have any concerns, please seek medical advice from your GP.
